PROFESSIONAL SUMMARY

Aspiring Generative AI Engineer with a strong foundation in Data Science and AI-driven solution development. Passionate about solving real-world business problems through AI integration, advanced analytics, and intelligent automation. Experienced in applying machine learning, deep learning, and modern AI system.

EXPERIENCES

KFS Gov – Gen AI & Data Science Intern

Feb 2026 – Present

- Developed and contributed to AI solutions designed for real-world governmental applications across KFS Gov.
- Collaborated on scalable AI applications aimed at improving operational efficiency and decision-making.

Freelance – Gen AI Eng & Data Scientist

Feb 2026 – Present

- Developed projects in computer vision, RAG systems, data analytics, and business intelligence dashboards.
- Built AI-powered solutions using Python, TensorFlow, Scikit-learn, and Generative AI technologies.

Hex Softwares Pvt. Ltd. – Data Science Intern

Jan 2026 – Feb 2026

- Applied data science and machine learning techniques to real-world datasets.
- Developed practical experience in end-to-end data science project execution.

NTI – Big Data Analysis Trainee

Jul 27 – Aug 21, 2025 | 120 Hours (90 Technical + 30 Freelancing) 97.5% overall score

- Gained hands-on experience in data processing, analysis of large datasets, and analytics workflows.
- Learned freelancing fundamentals, including project delivery, client communication, and professional practices.

CERTIFICATIONS

- IBM RAG and Agentic AI — May 2026
- OpenAI Deep Learning — Feb 2026
- NVIDIA Building RAG Agents with LLMs — Feb 2026
- Introduction to Deep Learning — Jan 2026
- ITI Generative AI Level 1 — Dec 2025
- AI for All: From Basics to GenAI Practice — Nov 2025
- Microsoft SQL Server Professional Certificate — Nov 13, 2025
- IBM Machine Learning with Python & Scikit-learn Professional Certificate — Oct 31, 2025
- THARAA Data Analysis — Oct 2025
- Microsoft Power BI Data Analyst Professional Certificate — Oct 2025
- IBM Data Analysis with Python — Sep 2025
- NVIDIA Getting Started with Deep Learning — Aug 2025
- OpenAI Neural Networks and Deep Learning — Jul 2025

EDUCATION

Bachelor of Bio Artificial Intelligence

Kafr El-Sheikh University, Egypt

PROJECTS

- **Egyptian ID Card OCR System:** Developed an AI-powered OCR solution for extracting and processing data from Egyptian national ID cards using computer vision, image preprocessing, and text recognition techniques.
- **AI Document Validation System:** Developed an AI-powered document validation system to verify, analyze, and process official documents using OCR, machine learning, and automated data verification techniques
- **Closer Communication Bridge System:** Developed a dual-mode AI communication system that bridges communication between blind, deaf, and mute individuals
- **End-to-End Solutions:** Built end-to-end Generative AI pipelines involving data ingestion, embedding generation, prompt engineering, LLM integration, and response evaluation to create intelligent, insight-driven applications.

COMPETITIONS

- **DIGITOPIA National AI & Data Analytics Competition:** Participated in a nationwide competition, applying AI and data analytics skills to real-world challenges.
- **Rally Egypt Investment & Trading Competition:** Participated in a national-level competition, applying AI, analytics, and problem-solving skills to real-world investment and business challenges.

TECHNICAL SKILLS

- **Programming & Data:** Python, SQL, Machine Learning, BI
- **Data Science:** Deep Learning, Computer Vision, NLP
- **GenAI & Agentic:** LLM's ,RAGs , Prompt Engineering
- **AI Tools & Agents:** Working with modern AI agents & tools to produce Real world Solutions

SOFT SKILLS

- Problem-Solving & Critical Thinking
- Time Management & Organization
- Teamwork & Collaboration
- Adaptability & Continuous Learning
- Presentation & Reporting Skills
- Attention to Detail

LANGUAGES

- ◆ **Arabic:** Native
- ◆ **English :** Fluent
